Highly Personalized for Working Smarter, Not Harder

The platform automates and streamlines your organization's workflow by building a cross-department enterprise that supports data sharing and sustains data integrity.

MapVision is the most efficient, effective, and resourceful web-based geospatial data management system available. The software is loaded with standard features and offers customized options to support you now and as your operation grows.
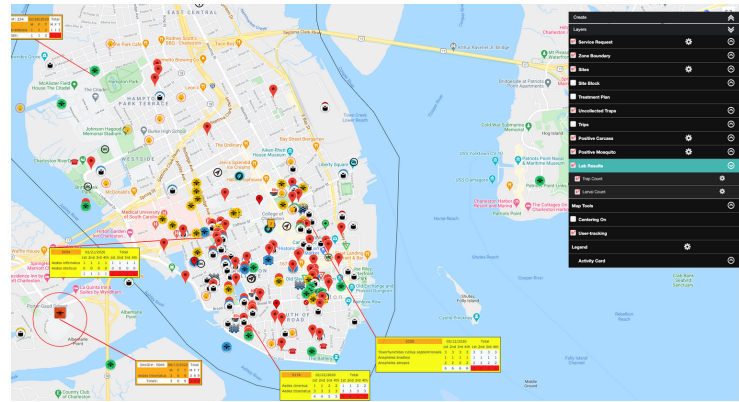

Designed Specifically for Vector Management Operations

There are MapVision users from coast to coast in the U.S.A.

It is an easy to use and quickly deployed solution.

The platform is ready to support:

- large operations
- small operations
- small budgets
- operations with a long or short management season

Operations

The platform includes many essentials:

- Activity Card Management
- Zones + SubZone Management
- Point, Poly, and Line Site Management
- My Tasks/Assignments: AC, Lab, SR, Workflow, etc.
- KML + Shapefile Upload to Field Map
- Ground + Aerial Treatment Plan Workflow
  - Vehicle + Aircraft Mission Replay
- Service Requests: CRM, SRM, Public SR Page
- Real Time User Tracking for Field App Users

MapVision Field App

Designed by and for technicians

MapVision's highly customizable iOS app allows technicians to create multiple personalized filters and tag their favorites. Combined with the App's ability to operate in the field (online or offline), your team will always have the data they need at their fingertips - wherever they work.

MAPVISION PROVIDES A HOME FOR GOOD DATA TO GROW AND FLOURISH

Mapping

Intuitive Mapping *(GIS background not needed)*

- Rainfall + Landing Rate Surveillance
- Mosquito Pool + Dead Bird Testing Results
- Sentinel Chicken Test Results

Laboratory

- Laboratory Surveillance/Mosquito Pool Map
- Sentinel Chicken Flock Management

Enterprise also includes:

- Tick Surveillance
- Heightened Surveillance
- Parcel Inspection Plan

Administration

- Inventory Management
- Main Dashboard
- User Management
- Extensive Rules + Legend Mgmt
- Equipment + Vehicle Maintenance
- Notification System (*emails, tasks, etc.*)
- VectorSurv Integrations + Reconciliation

Reporting

Tier l - Standard Reporting
Includes 10 Reports

Enterprise also includes:

Tier ll - Microsoft Power BI
Dashboards + Visualizations

Essential Migration

- Master Mgmt System Set-Up Data Migration
- Essential Data Load

Training

- Virtual Training
- Online Video Library

Additional Integration to Help Manage Your Operation

MapVision ULV Flow Control APP
Streamline the often labor intensive and time sensitive process of planning ULV treatment missions. From route planning and equipment calibration to applying products. Bring it into MapVision for your operation's reporting requirements.
